4 May 1973

73-0315

MEMORANDUM FOR: Members of SIGINT Committee Ad Hoc Group
for Development of Assessment Methods

SUBJECT : Minutes of the Twenty-first Meeting,
3 May 1973

1. Attendees were:

Major John Anderson, OSAF
Mr. Robert DuBois, USAF
CDR Jerome Galinsky, Navy
LCDR Robert Gasser, OSAF

Major Charles Smith, Army

Chairman

2. Air and Sea EOB will be dropped since they are included in the Technical portion of ELINT. This changes the ELINT Summary Sheet in Tab A.

3. So far we have been unable to establish a denominator for Operational ELINT. That means that the scoring approach proposed by the DIA representative results in scores proportional to the level of activity as well as proportional to how well ELINT does. Consequently, this score cannot be used in arriving at an overall score. For the time being, it is planned to footnote the overall score to the effect that Operational ELINT accomplishments are not included.

4. On the Telemetry score, item 2d, only scoreable in 30-180 days will be included when available and weighted in the overall Telemetry score appropriately. The promptly available items will be scored in the current month.

5. The introduction to the interim report is currently being rewritten and Tab B is in process of assembly. A complete draft will be distributed next week (except for COMINT and lasers).

Chairman
